SOUTHERN CALIFORNIA
EDISON®

An *EDISON INTERNATIONAL®* Company

SOUTHERN CALIFORNIA EDISON COMPANY (SCE)

NOTICE OF PHASE 2 OF SCE'S 2015 GENERAL RATE CASE (GRC)

APPLICATION (A.) 14-06-014

PROPOSAL TO REVISE ELECTRIC RATES

On June 20, 2014, Southern California Edison Company (SCE) filed Application 14-06-014 with the California Public Utilities Commission (CPUC) seeking approval to revise rates for all of its customers. This application is part of the Commission's process to establish costs, allocate revenues, and design rates for all customers. This filing is referred to as Phase 2 of SCE's 2015 General Rate Case (GRC). This application will not increase or decrease overall revenues collected from SCE's customers. Revenue changes will be determined in separate proceedings and will be taken into account before the CPUC concludes its review of this application. The rate design the Commission adopts in the Phase 2 proceeding will incorporate those revenue requirement changes.

Included in this proceeding is SCE's proposal to establish a new method for assigning baseline allowances to all-electric customers. This new methodology would result in single-family all-electric residences receiving a higher baseline amount than multi-family all-electric residences. SCE also requests approval to transition small and medium commercial and industrial customers, and large agricultural and pumping customers, to default "critical peak pricing" (CPP) rates. This may be avoided if customers choose to opt out. CPP customers are charged a significantly

higher energy charge during twelve annual CPP event periods, but receive a lower rate for non-event period usage and/or demand.

In Phase 1 of SCE's 2015 GRC (proceeding A.13-11-003), the Commission is currently reviewing SCE's requests for additional revenues needed to operate and maintain its electric generation and delivery systems. **If the Commission should approve total rates as requested in this Application, SCE estimates that its Phase 1 request and other revenue requirement changes pending in other proceedings will result in an 11% system average rate increase relative to April 2014 rates.** The Phase 2 revisions are estimated to change rates for customers in the fourth quarter of 2015.

The following table compares SCE's April 2014 average rates, by customer group, to an estimate of proposed average rates if SCE's revenue allocation proposals in this Application are approved by the Commission:

Customer Group Revenue Impact
2015 GRC Phase 2 Application

Customer Group	Average Rates April 2014 □/kWh	Proposed Rates □/kWh	Proposed Change %
Residential	16.3	16.7	2.4%
Lighting - Small and Medium Power	17.2	16.8	- 2.3%
Large Power	12.3	12.1	-1.5%
Agricultural and Pumping	13.5	14.4	6.2%
Street and Area Lighting	18.0	18.8	4.6%
Standby	10.4	10.5	1.3%
TOTAL	15.6	15.6	0.2%

The actual changes in rates will be determined by the Commission.

For Further Information From SCE

You may review a copy of this Application and related exhibits at SCE's corporate headquarters

(2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view these materials at the following SCE business offices:

1 Pebbly Beach Rd. Avalon, CA 90704	1820 Rimrock Rd. Barstow, CA 92311	374 Lagoon St. Bishop, CA 93514

CPUC PROCESS

The CPUC will evaluate and determine SCE's 2015 GRC Phase 2 proposals through its administrative law process where the proceeding is assigned to an Administrative Law Judge (Judge) who will direct the method in which the record, upon which the Commission bases its decisions, is made. The Judge may hold evidentiary hearings where parties to the proceeding provide testimony and other parties may cross-examine them. These hearings are open to the public, but only formal parties of record may participate. After considering all proposals and evidence presented, the assigned Judge will issue a proposed decision. The Commissioners may

approve the proposed decision as written, modify it, approve another proposal written by a Commissioner or completely deny SCE's request.

The CPUC also would like to hear from you. You may submit informal comments to the CPUC's Public Advisor's Office at:

Write: California Public Utilities Commission
Public Advisor's Office
505 Van Ness Avenue
San Francisco, CA 94102

E-mail: Public.Advisor@cpuc.ca.gov

Telephone: **1-866-849-8390** (toll-free) or **1-415-703-2074**
1-866-836-7825 (toll-free) or TTY **1-415-703-5282**

Please state that you are writing concerning SCE's application A.14-06-014. Your comments will become a part of the formal correspondence file for public comment in this proceeding.

You may also contact the CPUC Public Advisor's Office if you need advice on how to participate in this proceeding.
