

HAT CREEK CONSTRUCTION & MATERIALS, INC.

“WE SPECIALIZE IN SATISFIED CUSTOMERS”

South Lake Road Construction Information

The construction schedule remains Monday – Friday, 6:00am to 8:00 pm. Expect up to 30-minute delays. Flaggers and a pilot car will manage traffic, allowing alternating two-way traffic.

**Overnight parking restrictions planned;
parking still limited**

Tye Lakes parking lot is closed effective July 30 (no day or overnight parking). Parking will be restored after the work is complete.

Overnight parking is permitted at Bishop Pass Trailhead through August 17. Hikers entering or exiting the Bishop Pass Trail should understand that parking is extremely limited, plan their trips in accordance with the reconstruction schedule, and consider being picked up or dropped off at the trailhead or using shuttles to/from trailheads.

On August 17, the Bishop Pass Trailhead parking lot will close to overnight parking again for necessary work. It will close intermittently to day use parking as well.

Overnight parking is still available at the dirt parking lot north of Tye Lakes Trailhead (3 miles from trailhead).

There is no parking permitted along roadside shoulders during the construction project.

Hiker Shuttles: Eastern Sierra Transit Authority (ESTA)'s Bishop Creek Shuttle is running twice daily.
