

Homemade Bubble Wand Ideas

kidspot.com

What you need

- plastic cups
- plastic soft drink bottles
- pipe cleaners
- plastic funnel
- drinking straws
- scissors

Activity

You can use just about anything to make a bubble wand, but start with these ideas and experiment later.

Plastic cup:

Punch a hole in the bottom to blow through.
Dip the large open end into the solution and blow.

Plastic soft drink bottles:

Cut the bottom off the bottle and dip.
Use the lid end of the bottle to blow you bubbles.

Pipe cleaners:

You can create just about any shape you like form a pipe cleaner, just make sure you keep a small section as a handle. Try with circles, stars or even triangles.

Plastic funnel:

This already has a natural shape for a bubble wand. Using the large end to dip and the small end to blow, this is a sure winner!

Drinking straws:

These should be small, but fast flowing bubbles. Why not bunch some together and see how many you can get. Dip and try!
