Subject  
Redistricting - Map 6  
Comment or Question

I am in favor of the redistricting using Map 6 - Tribes are distinct but closely related communities of interests (COIs) with many shared interests (oversight over DWP, conservation and protection of land and cultural resources, oversight over county law enforcement – which has criminal jurisdiction on all tribal trust land)

- The Fair Maps Act (CA, 2019) directs redistricting committees to prioritize keeping communities of interest together over essentially every other factor (besides that districts must be connected / contiguous)

o Main purpose of fair maps act is to allow COIs to get fair and effective representation

o COIS are More important than not dividing cities, having districts be easily identifiable and understandable by residents, and more important than geographical compactness

- County tribal population is nearly 1/5th of population > tribes deserve a dedicated voice in county government (control over 1 of 5 supervisor seats)
