Project Title: Soil Management Agreement for Aerially Deposited Lead-Contaminated Soils

Location of Project: Caltrans right-of-ways throughout the State of California

Project Description: The DTSC is proposing to enter into an agreement with the California Department of Transportation (Caltrans) that would, under specified terms and conditions, allow Caltrans to excavate, stockpile, transport, and reuse soil contaminated with aerially-deposited lead (ADL) that may be encountered during highway improvement projects conducted within existing state-owned highway right-of-ways (Agreement). These projects are individually subject to additional environmental impact assessments as required by the California Environmental Quality Act (CEQA) when Caltrans proposes and approves projects for detailed design and construction.

This discretionary action is being undertaken by DTSC pursuant to its authority under the California Health & Safety Code, Division 20, Chapter 6.5, and the California Code of Regulations, section 66270.42.

Any Significant Effects on the Environment: None
