

You can make a difference in Inyo children's lives!

First 5 Inyo County is looking for a volunteer Commissioner who has experience with young children 0-5 and their families in either the early health or education field to help shape our service and funding decisions. Do you want to help local kids?

Commissioners dedicate a couple of hours each month to attend regular monthly meetings to discuss and vote on funding and services for children that promote family strengthening through: parent education, early development services, and child health programs.

If you are interested in more information about joining the Commission, please call Jody at **(760) 873-6453** or email **jveenker@inyocounty.us**

Please feel free to attend our next meeting Jan 21 at 10AM located in the front conference room of the HHS Offices at 912 N. Main Street in Bishop, too!
