

# STRATEGIC GRANTS

Strategic Grants are our most accessible tier of funding. Their simple, 3-page application allows you share your idea for helping children 0 to 5 here in Inyo County, and tell us how you plan to measure the impact your idea makes in their lives.

Strategic Grants do not exceed one year and may be funded up to \$2,500. Projects will include small community efforts of limited scope, project sponsorships, and what have in the past been termed First 5 Inyo Minigrants.

The critical goals the Commission has identified for strategic grant solutions include:

## CHILD HEALTH:

- 1.Children have access to nutrition and fitness resources to maintain a healthy weight.*
- 2.Children receive access to preventative and ongoing oral health care.*
- 3.Children receive access to preventative and ongoing health care.*

## CHILD DEVELOPMENT:

- 1.Parents & caregivers have increased knowledge & skills regarding child development.*
- 2.Children have increased access & availability to a variety of quality care & early education programs.*

## FAMILY FUNCTIONING:

- 1.Community resources get support to help families of children 0 to 5 meet basic needs.*
- 2.Community resources have increased support to sustain children 0 to 5's health & development.*

The Commission accepts Strategic Grant Applications year-round. You can access a copy of the current application and follow the Strategic Grant Workshop power point below, or you can call the First 5 Inyo office for personalized help at 873-6453.
