

SPECIAL PROJECT GRANTS

Special Project Grants are our second tier of funding. They are awarded by RFP and focus on meeting the priorities, goals, and outcomes of the Commission, utilizing strategies that are outlined in our Strategic Plan.

The Areas the Commission has selected for special project consideration are the same as those for strategic grants, but the scope of special grant projects is larger. Plan on a more detailed and extensive application, and make

sure your proposals presents the potential for a big change or wide-scale implementation. The Commission is looking for what the name implies—something special.

CHILD HEALTH:

1. Children have access to nutrition and fitness resources to maintain a healthy weight.
2. Children receive access to preventative and ongoing oral health care.
3. Children receive access to preventative and ongoing health care.

CHILD DEVELOPMENT:

1. Parents & caregivers have increased knowledge & skills regarding child development.
2. Children have increased access & availability to a variety of quality care & early education programs.

FAMILY FUNCTIONING:

1. Community resources get support to help families of children 0 to 5 meet basic needs.
2. Community resources have increased support to sustain children 0 to 5's health & development.

RFPs are currently being developed. Once they are released and the Special Grant Workshops are scheduled you can links to both below! In the meantime, call the First 5 Inyo office at 873-6453 with any questions or to be added to our email listserv for notification.
