

# TARGETED GRANTS

Targeted Grants may be funded from the pool of high quality, high performing Special Project Grants funded in a previous year.

Contracts will be for one year with an option for renewal for three additional years based on results and contract compliance. Should a contract be renewed for three years, the third year will be a transition contract as no further funding may be awarded thereafter.

Applicants with promising Special Project Grants may apply for this larger transitional funding by invitation of the Commission. To find out more about this opportunity call the First 5 office at 873-6453 or email [jveenker@inyocounty.us](mailto:jveenker@inyocounty.us).

# OTHER FUNDING

The Commission also has plans to address goal area 4 to help improve systems of care and leverage existing resources in our community. They are budgeting money for a capacity building project, which could take the form of a county-wide system to track and measure data, or another support system that better prepares local agencies to report the strengths and successes of their work to secure multiple funding streams.

For more information on where this targeted project stands, call or email First 5 at 873-6453 or [jveenker@inyocounty.us](mailto:jveenker@inyocounty.us).
