

ADDENDUM NO. 1
TO THE REQUEST FOR PROPOSALS FOR
AIRPORT ENGINEERING SERVICES

September 23, 2024

This addendum is being issued to notify proposers of the following modifications to the Request for Proposals for Airport Engineering Services, dated September 9, 2024:

1. The Exhibit containing the sample contract and insurance requirements was absent from the posted Request for Proposal document, and was incorrectly referred to in the document as Exhibit B instead of Exhibit A. The Exhibit is now available for download on the Inyo County Bid Request/RFP website at <https://www.inyocounty.us/services/county-administrators-office/bid-request-rfp/request-proposals-airport-engineering-0>.
2. The final bullet point under *Qualifications* requests that the respondent submit their company's DUNS number. This requirement is removed.
